

ARTICLE 1: JAMES J. DYER INVESTIGATION

James J. Dyer (James) was believed to be involved in criminal behavior.

He avoided prosecution by cooperating with the government, for which he received immunity.

This immunity, however, did not relieve him of his obligation to disclose this criminal behavior before applying for and obtaining his Wisconsin Certified Public Accountant license.

The following evidence demonstrates that James was given the opportunity to document whether his immunity relieved him of this disclosure obligation.

Notice of Intent to File Formal Regulatory Complaints
